

## WixMLS Login Information Questionnaire:

1. For the websites that need the integration, where are they located and what REALTORS® association are they a part of?
2. Do you currently have access to your “Matrix” IDX/RETS data feed for each website? If so, we need access to your RETS URL, RETS Username, and RETS password (until ready to move forward)
3. If you don’t have access, you will need to call your association and request access for it by asking verbatim " We are looking to get access to our RETS data feed API. We are looking to pull the raw data directly and display it on a website" they will send the necessary steps/paperwork.
4. Are you using any other 3<sup>rd</sup> party integrations?
5. Can you provide a link to where we can see your active listings ([Realtor.com](https://www.realtor.com) or Zillow works fine)

All of these steps are in place to learn more about where you currently have your listings RETS/IDX, so our developers can determine if we can pull from the MLS and refresh the data for you directly on Wix.
